DETAILED ACTION

Allowable Subject Matter

Claims 1-12 are allowed over the prior art.

The following is an examiner's statement of reasons for allowance:

Claims 1 and 5-12 are allowed because the examiner found out that applicant's argument in the Remarks filed on 5/8/06 is persuasive. Applicant argued that the reference Levin (US 6,751,782) does not teach or disclose the step of determining a first current flowing through the pull-up or the pull-down circuit, respectively with substantially simultaneously activated pull- up and pull down circuits recited in claim 1 (see page 8 of the Remarks). During further search, the examiner found that the prior art in the record does not teach or suggest a method for measuring the impedance of a driver device comprising the steps of substantially simultaneously activating both the pull- up and the pull down circuits and determining a first current flowing through the pull-up or the pull-down circuit, respectively recited in claim 1 and shown in Fig. 2. Claims 5-12 are dependent on claim 1 and are allowed accordingly. Claims 2-4 was indicated allowable and the reasons for allowance are stated in the previous office action dated on 2/10/06.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
